

Well here my protected ones, some recipes:

a little bag containing the eye of a woodpecker

a penny w/a hole in it

an aerolith (sky-stone) and dust from a grave

a.k.a. goofer dust

periwinkle becomes an aphrodisiac if eaten powdered with
earthworms in meat

raw corn well chewed and put on a tumour brings it to a head

chimney soot mixed with good vinegar is a specific against chilblains

Hare's Brain: a good emollient facilitating the coming of first teeth
